<input checked="" type="checkbox"/>	Rating	No	Yes (Star, Number, Emoji)	Yes	Yes	Yes
<input type="checkbox"/>	Image Upload	No	Yes	Yes	Yes	Yes
<input type="checkbox"/>	Video Upload	No	Yes	No	No	No
<input type="checkbox"/>	Payments	No	Yes (Stripe Integration)	No	No	No
<input type="checkbox"/>	Signature Field	No	Yes	Yes	Yes	Yes
7		Answer Options				
<input type="checkbox"/>	Image Choices	Yes (Image as Choice Option)	Yes (Image as Choice, Image with Text Overlay)	Yes (Image Choices)	Yes (Image as Choice Option)	Yes (Advanced Image Choices)
<input type="checkbox"/>	Video Choices	No	Yes (Video as Choice Option)	No	No	Yes (Video Choices)
<input checked="" type="checkbox"/>	File Upload Size Limit	Yes (Limited to 10 MB per file with Plan)	Yes (Customizable, Up to 4 GB)	Yes (Custom Limits, Based on Plan)	Yes (Custom Limits, Up to 100 MB)	Yes (Custom Limits, Based on Role)
<input checked="" type="checkbox"/>	Answer Randomization	Yes (Randomize Order of Choices)	Yes (Advanced Randomization, Grouping)	Yes (Randomization per Question)	No	Yes (Customizable Randomization)
<input checked="" type="checkbox"/>	Answer Shuffling	Yes (Shuffle Answer Options)	Yes (Shuffle Options with Rules)	Yes (Shuffle with Exclusions)	Yes (Basic Shuffling)	Yes (Advanced Shuffling Options)
<input checked="" type="checkbox"/>	Answer Limits	No	Yes (Limit Number of Responses per Option)	Yes (Response Limits per Option)	Yes (Limit Number of Selections)	Yes (Custom Answer Limits)
<input checked="" type="checkbox"/>	Weighted Answers	No	Yes (Assign Weights to Answers)	Yes (Scoring Weights per Answer)	Yes (Weighted Scoring)	Yes (Advanced Weighted Scoring)
3		Conditional Logic				
<input checked="" type="checkbox"/>	Question Skipping	Yes (Basic Skip Logic)	Yes (Custom Skip Rules)	Yes (Advanced Skip Logic)	Yes (Skip Rules per Candidate)	Yes (Advanced Skip Logic)
<input checked="" type="checkbox"/>	Response-based Routing	No	Yes (Route to Different Sections Based on Responses)	Yes (Conditional Routing to Sections)	Yes (Response-based Routing)	Yes (Advanced Response Routing)
<input checked="" type="checkbox"/>	Hidden Fields	No	Yes (Hidden Questions/Fields Based on Logic)	Yes (Hidden Fields, Questions)	Yes (Hidden Questions)	Yes (Advanced Hidden Fields)
<input type="checkbox"/>	Score Calculation	No	Yes (Auto-calculate Scores Based on Answers)	Yes (Conditional Score Calculation)	Yes (Score Calculation Based on Responses)	Yes (Advanced Score Calculation)
12		Form Features				
<input checked="" type="checkbox"/>	Form Expiration Date	No	Yes (Set Expiry Date for Form)	Yes (Form Availability Window)	Yes (Expiry and Start Date)	Yes (Custom Expiry Rules)
<input checked="" type="checkbox"/>	Response Quotas	No	Yes (Limit Number of Total Responses)	Yes (Set Response Limits)	Yes (Limit Responses per Form)	Yes (Advanced Quota Management)
<input checked="" type="checkbox"/>	Response Save Confirmation	No	Yes (Custom Confirmation, Redirects)	Yes (Custom Confirmation Messages)	Yes (Save and Confirm Responses)	Yes (Advanced Response Confirmation)
<input type="checkbox"/>	Form Autofill	Yes (Basic Autofill with Google Accounts)	Yes (Advanced Autofill with Data Sources)	Yes (Autofill Based on Previous Responses)	Yes (Autofill from Previous Responses)	Yes (Custom Autofill Options)
<input checked="" type="checkbox"/>	Real-time Response Editing	No	Yes (Edit Responses Live During Form Completion)	Yes (Real-time Editing Options)	Yes (Edit Responses Before Submission)	Yes (Advanced Real-time Editing)
<input checked="" type="checkbox"/>	Response Review Page	Yes (Review Responses Before Submission)	Yes (Customizable Review Page)	Yes (Review Page with Summary)	Yes (Review Before Final Submission)	Yes (Advanced Review Page)
<input type="checkbox"/>	Response Time Limits	No	Yes (Set Time Limits for Completing Form)	No	No	Yes (Custom Time Limits)
<input type="checkbox"/>	Response Captcha	Yes (Basic Captcha for Spam Prevention)	Yes (Advanced Captcha, reCAPTCHA v3)	Yes (Spam Prevention with Captcha)	Yes (Captcha Integration)	Yes (Customizable Captcha Options)
<input type="checkbox"/>	Form Versioning	No	No	Yes	Yes	Yes
<input type="checkbox"/>	Multi-language Forms	Yes (Manual Translation)	Yes (Auto-translate, Multi-language Selection)	Yes (Multi-language with Translation)	Yes (Custom Multi-language Support)	Yes (Advanced Multi-language, Auto-detection)
<input checked="" type="checkbox"/>	Form Preview	Yes (Basic Preview Before Sharing)	Yes (Live Preview, Device-specific)	Yes (Preview on Different Devices)	Yes (Preview as Candidate)	Yes (Advanced Live Preview, Customizable Views)
<input type="checkbox"/>	Offline Form Creation	No	No	No	Yes (Offline Mode Available)	Yes (Offline Form Building)
6		Form Sharing				
<input checked="" type="checkbox"/>	Share via Link	Yes (Generate Shareable Link)	Yes (Customizable Link, Branded URLs)	Yes (Shareable Link with Custom URL)	Yes (Link Sharing, Password Protection)	Yes (Custom Links, Expiry Dates)
<input type="checkbox"/>	Embed Form in Website	Yes (Embed Code for Websites)	Yes (Customizable Embed Code, Full Width)	Yes (Embed with Custom Code)	Yes (Embed with Tracking)	Yes (Advanced Embedding Options)
<input checked="" type="checkbox"/>	Email Sharing	Yes (Share via Email)	Yes (Email Invitations, Custom Messages)	Yes (Email Form with Branding)	Yes (Email Invitations with Tracking)	Yes (Advanced Email Sharing)
<input type="checkbox"/>	QR Code Sharing	No	Yes (Generate QR Code for Form)	No	Yes (Custom QR Codes)	Yes (Advanced QR Code Generation)
<input type="checkbox"/>	Social Media Sharing	Yes (Basic Sharing Options)	Yes (Customizable Social Sharing, UTM Tracking)	Yes (Share on Social with Analytics)	Yes (Social Sharing with Tracking)	Yes (Advanced Social Media Sharing)
<input type="checkbox"/>	Custom Sharing Options	No	Yes (Custom Sharing Widgets, Deep Links)	No	Yes (Custom Widgets for Sharing)	Yes (Advanced Custom Sharing, API Integration)
7		Form Responses				

Page	ID	Elements	Type	Associated Features / Items	Description	Dependency	Viewed By
Sign Up	SU-001	Email Input	Text Field	- Email validation: Ensures the email follows a proper format (e.g., "example@domain.com"). - Duplicate check: Checks if the email is already registered.	Allows user to enter their email address. Validation ensures a valid format. Duplicate check prevents multiple accounts.	None	All visitors
	SU-002	Password Input	Password Field	- Password strength indicator: Visually displays the strength of the password based on criteria such as length and complexity. - Show/Hide toggle: Allows users to toggle visibility of the password. - Security requirements: Enforces rules like minimum length and inclusion of special characters. - Password hint: Provides users with hints if the password does not meet security standards.	Secure field for password creation. Includes a strength indicator and enforces security requirements. Users can toggle visibility to view/hide the password as needed.	None	All visitors
	SU-003	Confirm Password	Password Field	- Real-time matching: Checks and provides instant feedback if the entered password matches the original password field. - Visual feedback: Shows a checkmark or error symbol based on whether the passwords match. - Error message for mismatch: Displays a clear error message if the passwords do not match. - Optionality based on password input: The field only appears if the user has entered a password in the original field.	Field to re-enter the password. Provides real-time matching feedback, and shows an error message if the passwords do not match.	Password Input	All visitors
	SU-004	Full Name	Text Field	- Name validation: Ensures no numbers or symbols are included in the name. - Capitalization: Automatically capitalizes the first letter of each part of the name. - Error handling for invalid characters: Prompts the user if they enter characters not allowed in the name field.	Field for user's full name. It validates the input to ensure no numbers or symbols are used, and capitalizes the first letter of each part of the name.	None	All visitors
	SU-005	Company Name	Text Field		Optional field for entering the company name.	None	All visitors
	SU-006	Role Dropdown	Dropdown	- Predefined roles: A dropdown menu with common roles such as "Manager", "Engineer", etc. - Custom role option: Allows users to enter a role not listed in the predefined options.	Dropdown to select the user's role within the company. Includes common predefined roles and allows custom role entry.	None	All visitors
	SU-007	Industry Dropdown	Dropdown	- Industry categories: Lists industries such as "Technology", "Healthcare", etc. - Custom category option: Allows users to add a new industry category if it is not listed.	Allows selection of relevant industries. Users can select from predefined categories, multi-select, or add a custom category.	None	All visitors
	SU-008	Company Size	Radio Buttons	- Size ranges: Provides options like 1-10, 11-50, 51-200, etc.	Radio buttons to select the company size, with clear size ranges.	None	All visitors
	SU-009	Terms & Conditions	Checkbox	- Link to full T&C: Provides a clickable link to the complete Terms & Conditions document. - Acceptance timestamp: Records the time and date when the user accepts the T&C. - Legal compliance: Ensures that the checkbox meets legal requirements for user consent.	Checkbox for users to agree to terms and conditions. Links to the full text. Records timestamp of acceptance for legal compliance.	None	All visitors
	SU-010	Newsletter Opt-in	Checkbox	- Marketing consent: Explicitly asks for consent to send marketing emails. - Privacy policy link: Includes a link to the privacy policy for transparency.	Optional checkbox to receive newsletters and updates.	None	All visitors
Login	LG-001	Email Input	Text Field	- Email validation: Ensures the email is in a valid format before submission. - Auto-fill: Supports auto-filling from saved browser data. - Error message for invalid email: Displays an error if the email format is incorrect.	Field for users to enter their email address. Validation ensures the input is in a valid format. Error message provides feedback if the email is invalid.	None	All visitors
	LG-002	Password Input	Password Field	- Password visibility toggle: Allows users to show or hide the password while typing. - Forgot password link: Provides a link to reset the password if forgotten. - Caps lock warning: Alerts the user if caps lock is on. - Error message for incorrect password: Displays an error if the password is incorrect.	Secure field for entering the password. Includes a visibility toggle for convenience and a link for password recovery. Alerts for caps lock and shows error messages if the password is incorrect.	None	All visitors
	LG-003	Remember Me Checkbox	Checkbox		Checkbox that allows users to stay logged in for future visits.	None	All visitors
	LG-004	Login Button	Button	- Disabled state: Button remains disabled until valid email and password are entered. - Error handling: Provides feedback if login fails (e.g., "Incorrect password").	Button to submit the login form. Remains disabled until both fields are filled with valid information. Provides error messages if login fails.	None	All visitors
	LG-005	Forgot Password Link	Hyperlink	- Email sending: Sends a password reset email with a secure link. - Rate limiting: Limits the number of password reset requests to prevent abuse.	Hyperlink that takes users to the password recovery process. Includes security verification, sends a reset email, and implements rate limiting to prevent multiple requests.	None	All visitors
	LG-006	Sign Up Link	Hyperlink	- Navigation to sign up: Directs users to the registration page if they do not have an account.	Hyperlink that guides new users to the sign-up page.	None	All visitors
	LG-007	Social Login Buttons	Button	- OAuth integration: Connects with Google, Facebook, LinkedIn, etc., for one-click login. - Error handling for failed logins: Provides feedback if the social login fails.	Buttons that allow users to log in with their social media accounts. Integrates with OAuth, fetches user data for account creation or login, and uses secure tokens for authentication.	None	All visitors
	LG-008	Login with SSO Link	Hyperlink		Hyperlink that directs users to authenticate via SSO. It routes based on domain, provides fallback options, and ensures secure communication during the SSO process.	None	All visitors
	LG-009	Error Messages	Text	- Invalid email format: Error displayed when the email does not follow the correct format. - Incorrect password: Error shown if the password entered does not match the stored password. - Account locked: Error displayed if the account is locked due to multiple failed login attempts. - Authentication failure: General error for other login issues, such as server problems or account suspension.	Text displayed on the login screen to inform users of errors during the login process. Covers various scenarios like invalid email, incorrect password, account lockout, or general failures.	None	All visitors
Home	HM-001	Dashboard Overview	Dashboard Widget	- Form summary: Shows a summary of all created forms, including the number of responses, View Responses Button and status (active/inactive). - Response analytics: Displays basic analytics such as response rate and average completion time. - Quick action buttons: Allows users to quickly perform actions like duplicating, editing, or deleting forms. - Search bar: Enables search functionality to find specific forms or responses. - Filter options: Provides filtering by form status, date created, and tags.	The dashboard overview provides a summary of all forms and responses, with quick access to key actions like editing or deleting forms. Includes basic analytics and search/filter options for easy navigation.	None	Logged-in users
	HM-002	Form Creation Button	Button	- Direct link to form builder: Takes the user to the form creation page. - Disabled state: The button is disabled if the user does not have the necessary permissions.	A prominent button that directs users to the form creation tool. Includes tooltips for guidance, and it can be disabled based on user permissions. Displays a loading indicator if the tool is slow to open.	None	Logged-in users
	HM-003	Recent Activities Feed	Activity Feed	- Form updates: Displays recent updates to forms, such as changes made or new responses received. - Collaboration notifications: Shows notifications when a collaborator makes changes to a shared form. - Comment notifications: Alerts users to new comments on their forms or responses. - Activity filters: Allows filtering the feed by activity type (e.g., form updates, comments, etc.).	An activity feed that keeps users informed about recent changes, updates, and collaborations on forms. Includes real-time updates and filtering options for easier navigation.	None	Logged-in users
	HM-004	Search Bar	Search Field	- Autocomplete suggestions: Provides suggestions as the user types, based on forms, responses, or keywords. - Advanced search filters: Allows users to apply filters like date range, form status, and tags. - Recent searches: Displays a list of recent searches for quick access. - Clear search button: Offers an option to quickly clear the search field.	A search field that enables users to quickly find forms, responses, or specific data within the tool. Includes autocomplete, advanced filters, and recent searches for convenience.	None	Logged-in users
	HM-005	Notifications Icon	Icon/Button	- Unread notifications count: Displays the number of unread notifications. - Dropdown with notifications list: Clicking the icon reveals a dropdown with recent notifications.	An icon that shows the number of unread notifications. Clicking it reveals a dropdown with recent notifications.	None	Logged-in users
Create Form	CF-001	Template Gallery	Grid		Displays available templates with thumbnails. Hovering over a template shows a full preview. Categories help users find suitable templates.	Template library	Logged-in users
	CF-002	Blank Form Option	Button	- Editing interface: Opens a new form with a completely blank canvas. Positioned prominently at the top of the template gallery.	Allows starting with a completely blank form, providing flexibility in form design.	None	Logged-in users
	CF-003	Job Description Option	Tab	- Add own JD: Allows users to paste or type in their own job description. - JD Creator: Interactive tool for generating a job description. - Upload & Auto-Recognition: Recognizes and extracts key details from uploaded JD.	Users can either enter their own job description manually or use a JD creator tool to generate one based on specified fields. If a job description is uploaded, key details are automatically recognized.	None	Logged-in users
	CF-003.1	JD Creator Tool	Form	- Fields: Brief description, Role, Industry, Pay, Mode, Must-have skills, Good-to-have skills. - Auto-generation: Creates a job description based on the filled fields. - Preview: Shows a preview of the generated job description.	A tool to generate a job description by filling out various fields. Provides a preview of the generated JD based on user input.	None	Logged-in users
	CF-003.2	Job Description Upload	File Upload	- Key detail extraction: Automatically extracts key details such as job title, responsibilities, and qualifications from the uploaded document. - Supported formats: PDF, DOCX, TXT.	Allows users to upload a job description file, with automatic extraction of key details. Supports common file formats like PDF, DOCX, and TXT.	None	Logged-in users

Page	ID	Elements	Type	Associated Features / Items	Description	Dependency	Viewed By
	CF-004	Form Appearance Tab	Tab	- Visual customization options: Includes color palette, font selection, background image, and more.	Contains all tools for customizing the visual appearance of the form.	None	Logged-in users
	CF-004.1	Color Palette	Color Picker	- Preset themes: Offers predefined color schemes. - Custom colors: Allows users to select custom colors.	Allows selection of the form color scheme with preset themes and custom color options.	Form Appearance Tab	Logged-in users
	CF-004.2	Font Selection	Dropdown	- Web-safe fonts: Includes standard fonts.	Allows choosing the font for the form. Includes web-safe fonts and custom font upload option.	Form Appearance Tab	Logged-in users
	CF-004.3	Background Image	File Upload	- Image cropping: Allows cropping of the uploaded image. - Positioning: Options for positioning the image in the header.	Allows uploading and customizing a background image for the form header.	Form Appearance Tab	Logged-in users
	CF-004.4	Logo Upload	File Upload	- Size restrictions: Enforces maximum size for the logo. - Positioning: Allows positioning the logo on the form.	Allows uploading and positioning a company logo on the form.	Form Appearance Tab	Logged-in users
	CF-005	Form Title	Text Field	- Auto-save: Automatically saves the form title as it is being typed. - Character limit: Enforces a character limit to prevent excessively long titles. - Placeholder text: Provides guidance on what the user should enter. - Required field indicator: Shows that this field is mandatory before publishing.	A field where users can enter the title of the form. It includes auto-save functionality, a character limit, placeholder text, and an indicator to show that the title is required.	None	Logged-in users
	CF-006	Form Description	Text Area	- Rich text formatting: Allows users to format text (bold, italic, lists, etc.). - Placeholder text: Provides an example or guidance for what to include. - Optional field: Indicates that this field is optional.	A text area for users to provide a description or instructions for the form. Supports rich text formatting, has a character limit, and is optional.	None	Logged-in users
	CF-007	Form Header	Header Section	- Customizable header image: Allows users to upload or select a background image for the form header. - Color palette selection: Provides a selection of colors to choose from for the header. - Font selection: Allows choosing fonts for the form title and description.	The form header section where users can customize the look and feel by uploading images, selecting colors, and choosing fonts.	None	Logged-in users
	CF-007	Question Bank	Sidebar	- Categorized suggestions: Pre-written questions based on job roles and skills. - Drag-and-drop: Add questions to the form by dragging them.	Provides pre-written questions with drag-and-drop functionality.	Job description or manual input	Logged-in users
	CF-008	Question Section	Section	- Add new question button: Allows users to add new questions to the form. - Question types dropdown: Provides a list of different question types (multiple choice, dropdowns, text fields, etc.). - Question duplication: Enables duplicating existing questions to save time. - Delete question button: Allows users to remove a question from the form. - Question order adjustment: Supports drag-and-drop to reorder questions within the section.	The main section where users add and manage questions. Users can add, duplicate, delete, and reorder questions, with a variety of question types to choose from.	None	Logged-in users
	CF-008.1	Multiple Choice Question	Question Type	- Answer option shuffling: Randomizes the order of answer options for each respondent. - Required field toggle: Allows making the question mandatory. - Other option: Adds an "Other" option for custom responses.	A question type that allows respondents to select one option from a list.	None	Logged-in users
	CF-008.2	Dropdown/Multi-select Question	Question Type	- Weight Assign: Possibility to assign weights to each option for scoring - Answer limits: Restricts the number of selections a respondent can make. - Required field toggle: Marks the question as mandatory. - Option randomization: Randomizes the order of dropdown options for each respondent.	A question type that provides a dropdown menu for selection.	None	Logged-in users
	CF-008.3	Short Answer Question	Question Type	- Character limit: Sets a maximum number of characters for the response. - Placeholder text: Provides an example of what the respondent should enter. - Required field toggle: Allows making the question mandatory. - Response formatting options: Allows formatting of the input text (e.g., uppercase, lowercase). - Evaluation criteria: Add skills, experience or some other evaluation criteria and assign an importance level	A question type that collects short text responses. Supports character limits, real-time validation, and optional formatting and required field settings.	None	Logged-in users
	CF-008.4	Paragraph Text Question	Question Type	- Word count limit: Limits the number of words in the response. - Rich text support: Allows respondents to use basic text formatting. - Placeholder text: Provides an example of what the respondent should enter. - Required field toggle: Marks the question as mandatory. - Text area resizing: Allows respondents to resize the text area for easier input. - Evaluation criteria: Add skills, experience or some other evaluation criteria and assign an importance level	A question type for longer text responses, with features like word count limits, rich text support, and required field options. The text area can be resized by the respondent.	None	Logged-in users
	CF-008.5	File Upload Question	Question Type	- File size limit: Sets a maximum file size for uploads. - Accepted file types: Specifies allowed file types (e.g., PDFs, Word documents). - Multiple file uploads: Allows respondents to upload more than one file. - Required field toggle: Marks the question as mandatory. - File preview: Provides a preview of the uploaded file before submission.	A question type that enables respondents to upload files. Includes file size limits, type restrictions, support for multiple uploads, and preview options.	None	Logged-in users
	CF-008.6	Linear Scale Question	Question Type	- Customizable scale range: Allows setting the minimum and maximum values of the scale. - Labeling of scale points: Enables adding labels to specific points on the scale. - Required field toggle: Marks the question as mandatory. - Horizontal/vertical orientation: Lets the form creator choose the orientation of the scale. - Default selection option: Allows setting a default selection on the scale.	A question type where respondents rate or select a value on a linear scale. Features customizable range, labeling, required toggle, and orientation options.	None	Logged-in users
	CF-008.7	Multiple Choice Grid	Question Type	- Row/column labeling: Allows labeling of rows and columns for clarity. - Answer limits per row/column: Restricts the number of selections in each row or column. - Required field toggle: Marks the question as mandatory. - Randomization of rows/columns: Randomizes the order of rows or columns for each respondent. - Error message for incomplete grid: Shows an error if the grid is not fully completed by the respondent.	A complex question type where respondents answer multiple related questions in a grid format. Features row/column labeling, answer limits, randomization, and error handling.	None	Logged-in users
	CF-008.8	Date & Time Question	Question Type	- Date format selection: Allows the form creator to choose the date format (e.g., MM/DD/YYYY, DD/MM/YYYY). - Time format selection: Lets the form creator select the time format (12-hour or 24-hour). - Calendar picker: Provides a visual calendar for easy date selection. - Time zone support: Adjusts times based on the respondent's time zone. - Required field toggle: Marks the question as mandatory.	A question type for collecting date and/or time inputs. Features include format selection, calendar picker, time zone support, and required field options.	None	Logged-in users
	CF-009	Conditional Logic Tab	Tab	- Access to all conditional logic settings. - Visibility of rules and conditions. - Option to create new rules or modify existing ones.	Tab containing all tools and options for setting up and managing conditional logic for the form. Includes visibility of existing rules and access to create or modify them.	None	Logged-in users
	CF-009.1	Add New Rule Button	Button	- Rule creation modal. - Options to select source question and target question. - Set conditions and actions.	Opens a modal for creating new conditional logic rules, allowing selection of source and target questions, setting conditions, and defining actions.	Conditional Logic Tab	Logged-in users
	CF-009.2	Rules Builder	Interface	- Visual editor for creating and managing rules. - Drag-and-drop for rule creation. - Option to set multiple conditions and actions.	A visual interface for building conditional logic rules, supporting drag-and-drop functionality, and allowing complex rule creation with multiple conditions and actions.	None	Logged-in users
	CF-009.3	Condition Selector	Dropdown/Modal	- Source question selection. - Condition type (equals, contains, greater than, etc.). - Value input field.	Allows selection of the source question and type of condition to be applied, along with input for the value against which the condition is evaluated.	Rules Builder	Logged-in users
	CF-009.4	Action Selector	Dropdown/Modal	- Target question selection. - Action type (show, hide, enable, disable, skip). - Action settings (e.g., skipping to specific questions).	Allows selection of the target question and type of action to be performed based on the condition. Includes settings for actions like showing, hiding, enabling, disabling, or skipping.	Rules Builder	Logged-in users
	CF-009.5	Test Rule Button	Button	- Preview of rule effects. - Testing conditions and actions. - Real-time feedback on rule application.	Button to test the created rule, previewing how the conditions and actions will affect the form. Provides real-time feedback on rule application.	Rules Builder	Logged-in users
	CF-009.6	Edit/Delete Rule Buttons	Button	- Options to edit or delete existing rules. - Confirmation prompts for deletion. - Rule editing interface.	Allows editing or deleting of existing conditional logic rules. Includes confirmation prompts to avoid accidental deletion.	Rules Builder	Logged-in users
	CF-010	Form Settings Tab	Tab	- Access to all form configuration options. - Visibility of current settings. - Option to modify settings.	Tab containing all configuration options for the form, with visibility into current settings and options to modify them.	None	Logged-in users
	CF-010.1	Time Limit	Time Picker	- Set maximum response time. - Countdown timer display.	Allows setting a time limit for completing the form. Includes options for countdown display and varying time limits by section.	Form Settings Tab	Logged-in users

Page	ID	Elements	Type	Associated Features / Items	Description	Dependency	Viewed By
Response Review	CF-010.2	Response Limit	Number Field	- Set maximum number of responses. - Notification on reaching limit.	Configures the maximum number of responses allowed for the form. Provides notifications when limits are reached and options for setting limits on individual questions.	Form Settings Tab	Logged-in users
	CF-010.3	Notifications	Toggle/Settings	- Enable/disable notifications. - Notification types (email, SMS, in-app). - Customizable notification messages.	Options to enable or disable notifications for responses. Customizable settings for notification types and messages.	Form Settings Tab	Logged-in users
	CF-010.4	Form Access Controls	Dropdown/Settings	- Restrict access (public, private, invite-only). - Password protection options. - IP address restrictions.	Controls access to the form, including public, private, or invite-only settings. Options for password protection and IP address restrictions.	Form Settings Tab	Logged-in users
	CF-011	Response Review Settings	Settings	- Enable review by administrators. - Review access permissions. - Review notification settings.	Configures who can review responses and how they are notified. Includes permissions for administrators and notification settings for reviews.	Form Settings Tab	Logged-in users
	RR-001	Response Column	Expandable Column	- Display Info: Shows response ID, submission time, and source. - Expand/Collapse: Click-to-expand functionality to view more details. - Sorting: Ability to sort by ID, time, or source. - Search: Search bar to find specific responses.	Displays basic response details including ID, submission time, and source. Users can expand to view detailed response data, sort the column, and search for specific responses.	None	Logged-in users
	RR-002	Name Column	Static Column	- Display Name: Shows candidate's full name. - Sorting: Ability to sort by name.	Displays the name of the candidate. Provides a link to their profile for more details, sorting options, and search functionality for names.	None	Logged-in users
	RR-003	Contact Information Column	Expandable Column	- Display Info: Shows email and phone number. - Expand/Collapse: Option to expand to view additional contact details.	Displays candidate's email and phone number in an expandable column. Clicking expand reveals additional contact details. Sorting and search functionalities are available.	None	Logged-in users
	RR-004	Resume Column	Static Column	- Link/Attachment: Displays a link or attachment for the resume. - Preview Option: Option to preview the resume. - Download Option: Allows downloading the resume. - File Size Indicator: Displays file size if applicable.	Shows a link or attachment to the candidate's resume with options to preview or download it. Indicates file size to manage expectations.	None	Logged-in users
	RR-005	LinkedIn Column	Static Column		Shows the LinkedIn logo and clicking on this redirects to the LinkedIn Handle of the candidate.	None	Logged-in users
	RR-006	Score Column	Static Column	- Overall Score: Displays candidate's overall score. - Detailed Breakdown: Option to view detailed score breakdown. - Sorting: Ability to sort by score. - Color Coding: Visual indicators for score ranges.	Shows the overall score given to the candidate. Users can view a detailed breakdown of the score, sort by score, and see color-coded visual indicators for different score ranges.	None	Logged-in users
Past Form Screen	RR-007	AI % in Subjective Answers Column	% Donut		Displays the percentage of AI evaluation in subjective answers. Includes options to view detailed AI comments, sort by percentage, and validate accuracy.	None	Logged-in users
	RR-008	Individual Candidate Status Column	Static Column	- Status Display: Shows candidate's current status (e.g., shortlisted, rejected). - Update Status: Option to update the status. - Sorting: Ability to sort by status.	Shows the status of the candidate in the review process with options to update the status. Includes sorting and search functionalities for statuses.	None	Logged-in users
	RR-009	Add Notes Column	Editable Column	- Add Notes: Text field to add notes. - Tagging: Option to tag notes. - Categorizing: Option to categorize notes. - Search and Filter: Search and filter notes. - Edit/Delete: Options to edit or delete notes.	Allows adding, managing, and organizing notes about the candidate. Includes tagging, categorizing, and search/filter options. Users can also edit or delete notes.	None	Logged-in users
	RR-010	Show All Answers Button	Button	- Reveal Columns: Unhides columns with detailed responses. - Toggle Visibility: Toggles visibility of specific answers. - Confirmation Prompt: Asks for confirmation before showing all answers.	Button to reveal all hidden columns containing detailed responses. Provides toggles for visibility and a confirmation prompt to prevent accidental exposure.	None	Logged-in users
	RR-011	Right Panel with Filters	Panel	- Dynamic Filtering: Allows filtering by various criteria (score range, time, source, etc.). - Filter Configuration: Set and adjust filter parameters. - Contextual Filtering: Filter responses based on specific contexts. - Prompt for Filtering: Provides prompts based on selected filter criteria.	Panel with dynamic filtering options for managing and sorting responses. Includes range settings, contextual filters, and prompts for refining filter criteria.	None	Logged-in users
	RR-012	Bulk and individual Actions	Button/Dropdown	- Bulk Actions: Options to perform bulk actions (e.g., select, reject, waitlist). - Individual Actions: Options to perform actions on individual responses. - Confirmation Dialogs: Prompts for confirming actions.	Provides options for performing bulk or individual actions on candidates, including selecting, rejecting, or waitlisting. Includes confirmation dialogs to prevent accidental actions.	None	Logged-in users
	RR-013	Manual Scoring	Scoring Interface	- Add Weights: Assign weights to different scoring parameters. - Custom Criteria: Set custom scoring criteria. - Summary Impact: View the summary of scoring impact.	Interface for manual scoring, allowing weights to be assigned to parameters and criteria to be customized. Provides real-time updates and summaries of how scoring changes affect overall results.	None	Logged-in users
	PF-001	Page Title	Text Display		Displays "Past Forms" as the header.	None	Logged-in users
	PF-002	Create New Form Button	Button		A button that redirects to the Create Form page. Positioned prominently and includes a tooltip that reads "Create a New Form".	None	Logged-in users
	PF-003	Search Bar	Text Input	Placeholder Text Search Filters	A search bar to find specific forms. Includes placeholder text and auto-suggests relevant forms as the user types.	Form data	Logged-in users
	PF-004	Sort Dropdown	Dropdown Menu	Sort by Date Sort by Name Sort by Last Modified Sort by Usage	Allows sorting of forms by different criteria like Date, Name, Last Modified, and Usage.	Form data	Logged-in users
	PF-005	Filter Panel	Sidebar / Modal	Filter by Date Range Filter by Form Type Filter by Status	A panel that allows users to filter forms based on various parameters. Users can save and apply preset filters.	Form data	Logged-in users
	PF-006	Form List	List View	Form Thumbnail Form Title Creation Date Last Modified Date Status Indicator Form Usage Stats	Displays a list of past forms with detailed information including title, thumbnail, creation and modification dates, status, and usage statistics.	Form data	Logged-in users
Templates	PF-006.1	Form Thumbnail	Image		Displays a thumbnail image of each form. On hover, it enlarges slightly to indicate interactivity.	Form data	Logged-in users
	PF-006.2	Form Title	Text Display		Shows the title of the form. Users can edit the title directly from this screen by clicking on it.	Form data	Logged-in users
	PF-006.3	Form Status Indicator	Icon/Badge	Status Indicators- Active Draft Archived	Visual indicators that show the current status of each form (e.g., Active, Draft, Archived).	Form data	Logged-in users
	PF-006.4	Form Actions Button	Button Dropdown	Following options should be there: Edit Duplicate Delete Archive Share Options	A dropdown menu providing options to edit, duplicate, delete, archive, or share the form.	Form data	Logged-in users
	PF-006.5	Bulk Actions Checkbox	Checkbox	Select All Bulk Delete Bulk Archive Bulk Export	Allows users to select multiple forms at once and perform bulk actions like deleting, archiving, or exporting.	Form data	Logged-in users
	PF-006.6	Pagination Controls	Buttons/Links	Page Numbers Next/Previous Buttons	Controls for navigating through multiple pages of past forms. Includes next/previous buttons and direct links to specific pages.	Form data	Logged-in users
	PF-006.7	View Form Button	Button	Form Preview Quick Access	A button that opens a preview of the selected form. Positioned within the form list for quick access.	Form data	Logged-in users
	PF-006.8	Form Usage Stats	Text/Icons	Response Count Last Response Date	Displays usage statistics for each form, including the number of responses, date of the last response.	Form data	Logged-in users
	PF-007	Share Options	Sidebar/Modal	Copy Link Email Sharing	Provides various options to share the form, including copying a direct link, sending via email.	Form data	Logged-in users
	TS-001	Template Categories	Sidebar	- Categorized sections: Job Types, Roles, Departments - Collapsible sections: Expand/Collapse categories for better navigation - Search bar: Real-time filtering of templates based on keywords	Sidebar containing categorized template sections. Users can expand/collapse categories and search for specific templates.	None	Logged-in users
Templates	TS-002	Search Bar	Text Field		Allows users to search templates by keywords. Provides autocomplete suggestions for quicker search.	None	Logged-in users
	TS-003	Template Thumbnails	Grid	- Hover effect: Displays template name and brief description - Preview button: Opens a full preview of the template - Use template button: Starts the form creation process using the selected template	Displays available templates in a grid format. Thumbnails include a brief description, preview, and use template options.	Template Library	Logged-in users

Page	ID	Elements	Type	Associated Features / Items	Description	Dependency	Viewed By
	TS-004	Template Preview	Modal	<ul style="list-style-type: none"> <li>- Full-page preview</li> <li>- Close button: Exits the preview mode</li> <li>- Select button: Starts form creation with the template</li> </ul>	Modal that provides a full-page preview of the selected template. Includes options to close the preview or start creating a form.	Template Thumbnails	Logged-in users
	TS-005	Template Tags	Tags	<ul style="list-style-type: none"> <li>- Filter by tags: Clickable tags for filtering templates</li> <li>- Tag categories: Job type, Industry, Role</li> <li>- Highlighted tags: Indicates selected filter criteria</li> </ul>	Tags associated with each template for filtering purposes.
